PEONIES

This type of Peony is very graceful in growth and quite different in type of flower. The flowers are single or semi-double with wide flaring petals of exquisite coloring and texture. The centers are usually a more or less compact mass of tiny petals or petaloids surrounding the stamens and usually of a color contrasting with the main petal color. Very charming color effects are found among them.

## Vesper Iris

The beautiful filigree of graceful branches of the Vesper Iris is studded with an almost unbelievable number of jewel-like flowers, truly a mammoth bouquet. The delicately colored blossoms, which at a little distance resemble somewhat a multitude of gorgeous butterflies at rest, with motionless outstretched wings, vary in color, including such hues as cool translucent lavender, with markings of mahogany, copper, lemon, orange, brown and Tyrian.

### 30¢ Each 6 for \$1.25 12 for \$2.40

The Vesper Iris, which often grows almost shoulder high, has a graceful ethereal beauty really impossible to describe. It is perfectly hardy and will endure both severe cold and intense heat with impunity. This little known but most desirable Iris will enhance the beauty of your garden with its delicate blossoms in the latter part of July and during August, sometimes continuing to flower even in September, filling the gap between the late Tall Bearded varieties and the fall bloomers.

## Hardy Garden Chrysanthemums

Blooming in September and October.

Everyone knows this is the ideal fall flower. But only in the past few years have they been so greatly improved in beauty, size, and hardiness. Plant these if possible in lots of three of a kind if you have the space. You will be astonished at their mass of bloom and color. Plants come in soil, packed in baskets, and can be shipped only in lots of six or more. No charge for packing. Parcel Post prepaid. Can be shipped now and until fall. Chraysanthemum spring sales are pot grown and will bloom in the fall. Fall sales are field grown clumps at the same prices
